**Sherwood Forest community manager Kitty Cole  
named Best Community Manager of the Year**

**Ionia, MI** – Sherwood Properties, managers of multiple manufactured home communities across Michigan and Texas, is pleased to announce Ionia’s Sherwood Forest community manager Kitty Cole was selected as “Best community manager” of the year by the Michigan Manufactured Housing Association (MMHA). Cole received her award at the MMHA annual conference in mid-October.

Kitty has been Community Manager of Sherwood Forest for three years. She is a lifetime Ionia resident, as well as former business owner, and an active Chamber of Commerce member. She has been able to use her many connections to benefit not only Sherwood Forest, but its residents, local businesses and the people of Ionia.

“Kitty is a caring, professional manager who truly enjoys her position and the residents she works with,” said Lou Woods of Sherwood Properties. “She is well deserving of this award and we are honored to have her as an excellent representative of Sherwood Forest and Sherwood Properties.”

Sherwood Forest is an established manufactured home community in picturesque Ionia, located 45 minutes east of Grand Rapids. The community offers residents a park-like setting with mature trees, walking trails and abundant wildlife. The community is close to the shopping and entertainment opportunities of downtown Ionia.

“My husband and I have resided in Sherwood Forest for 25 years and absolutely love it! When I came to work as Community Manager of Sherwood Forest in early 2015, it was one of the best decisions of my life,” Kitty said. “I consider myself very lucky to go to work each day to help people find forever homes in Sherwood Forest.”

“While there are many Michigan community managers deserving of the title best community manager, Kitty Cole was the clear choice for this peer award because of her spirit and attitude,” said Bill Sheffer, executive director of MMHA.

Sherwood Properties, LLC., manages three manufactured home communities in Michigan and an RV resort in Texas. For details on specific communities, visit [www.sherwoodproperties.us](http://www.sherwoodproperties.us).
